1. The SCHOENWALDE (N 53/2 66) airfield was observed from the west. Twenty to twenty-five single-engine aircraft were parked in front of the hangars. There was no flying because of unfavorable weather.
2. Gun firing was practiced at the target range northwest of the field. A radio station with four antenna masts was being operated at the southwest corner of the field.

Comment:

- a. According to previous reports, the field is occupied by a ground attack regiment previously stationed in COTTBUS.
- b. The reported radio station is presumably a short wave Adcock DF station.
